U.S. Patent and Trademark Office PTO-303 (Rev. 04-01) Continuation of 5. does NOT place the application in condition for allowance because: the prior art combination is valid for the reasons set forth in the Office action of 04/15/2003. Applicant argues the individual references; however, it is the combination which is being applied against claims 22-38. Applicant's argument alleging a lack of express disclosure of a treatment for diabetes is may be accurate; however, a treatment for diabetes is implicit in the express disclosure of the administration of powdered insulin inasmuch as insulin administration is known only for the treatment of diabetes.
